

PREMIUM RIGID INFLATABLE BOATS

INTRODUCTION

Delivering boating excellence & joy on the water for 20 years... For over two decades, we have specialized in the manufacturing of premium rigid inflatable boats and tenders. Inspired by a love of design, ergonomics and performance, we strive to elevate the boating experience by blending purposeful practicality with refined styling. Now with over 30,000+ boats sold worldwide, our original passion continues to underpin and transform the considered approach we take to our boats.

DESIGN & SAFETY

With safety at the core, we strive for design perfection in every single one of our boats. From our large family cruising RIBs down to the smallest inflatable tender, we consider crucial factors such as maneuverability, handling, stability, structural integrity and buoyancy at every touch point. Our designers and engineers utilize advanced software before going into technical production where every point and angle of a boat is examined from a safety and functionality perspective. At our final on-water tests, our team validate the boat's seakeeping, buoyancy and stability in practice to ensure we attain the highest level of safety.

STANDARDS & QUALITY

As a long-term leader in rigid inflatable boat manufacturing, our RIBs have established an industry-wide reputation for the highest standards of quality and reliability. Before they are released, every single model in the Grand range is certified by ISO International Standards, and is built in compliance with CE, UKSA, USSG and EPA requirements. Every aspect of production is done in-house, enabling us to perform quality control inspections at each stage to ensure that all aspects of the boat – from the hull, fiberglass parts and accessories, inflatable tubes, stainless steel fittings down to the very stitching of the upholstery – meet the standards we adhere to.

PRODUCTION & MATERIALS

European craftsmanship, technology and world-class materials are at the heart of every Grand RIB. While advanced technology underpins our production and ensures manufacturing accuracy, our team of experienced crafters bring a high-touch, personal approach to our boats, carrying out each step of the boatbuilding themselves. From fiberglass moulding to fabric cutting & stitching, gluing and assembling, we take an attentive and considered approach to every stage of the build. We are selective in the materials that we use too, utilizing only the best materials from the world's leading brands, including Scott Bader Gelcoats, ORCA Hypalon, Heytex Reinforced Polyester, Spradling Marine Upholstery, SeaDek Flooring and more.

DISTRIBUTION & DEALERS

Grand Inflatable Boats are available in over 40 countries worldwide, represented by over 30 Authorized Regional Distributors and Dealers. It is here that our personal, high-end approach continues, with these marine industry leaders extending personable service and exceptional aftercare experiences to our clients. Our distributors are committed to guaranteeing availability of our models, ensuring that our boats are accessible to boating enthusiasts all around the world.

GOLDEN LINE SERIES

Offering thrilling performance and unparalleled comfort, discover the Golden Line series - our high-end range of recreational luxury RIB boats and premium yacht tenders. Go offshore exploring with a unique style and serenity in mind, driving our thoughtful cruisers. Navigate and ride around the bay with our multifunctional riders-tender boats. Complemented with an extensive range of options and upgrades for enhanced convenience and experience, our Golden Line RIBs deliver you the most exclusive, memorable and quality family boating.

- Overall and harbour covers
- SeaDek soft anti-skid flooring
- Keel & tube protector packages
- Black powder coated stainless steel upgrade
- Overpressure valves

G340

DRIVE SERIES

Release the adrenaline with our most recent Drive Line series. Featuring a fast hull, dynamic design and luxury accents, it stands out as a mix of a functional modern cruiser and a professional speed boat. Such a combination is determined by an agile high-performance hull, with an extra durable “work boat” build, and a widely customizable deck that provides various layout solutions. Whether it is a fun recreational watercraft, support and patrol vessel, or a commercial RIB - Drive Line boats handle any challenge with ease, comfort and unique style.

DRIVE D950

Primarily designed for commercial purposes, it embraces the modularity concept and introduces a two-stepped V hull, twin engine with two independent tanks, and a super practical, purpose-driven built. The deck layout is as open as possible, with rear section raised by 18 cm off of the main deck to allow more configuration options and a built-in bow step. Thoughtful ergonomics provide multiple L & M sized lockers for nearly any kind of equipment, and it gets even better once configured to a preferred layout. We've established three main ones - but feel free to build your own.

ADVENTURE

First and most common layout is a well-known "taxi RIB" version, featuring a console and two single suspension seats for helm and passenger on the raised aft section. With workability and safety in mind the driver gets his optimal viewing angle while the passengers get up to six pairs of sturdy double jockey seats on that big deck in front. Altogether, it's a large, high-speed tour RIB for up to 12 passengers - the perfect vessel for nautical tourism and adventure sightseeing.

EXPLORER

Another basic, but lighter and neater built for private or work use. The console with the helm and passenger seats are mounted in the center, and a pair of double jockey seats put in front. This layout leaves the rear section completely open and adds some extra room in the bow for flexible use. Complete the build with a Hard-top and a radar on top of it, and here it is - a quick & strong work boat ready to dash offshore or a roomy & practical fishing RIB for a large company.

DIVE

The last basic layout for professional use. This configuration has the steering console sit in the center, or in the rear (if preferred). With plenty of room and storage lockers around the boat, and a couple of durable stainless steel benches for diving or other gear it becomes a handy dive platform. Of course, for maximum comfort and convenience it also features on-tube side platforms with open ladders, making it the perfect diving companion to go explore the underwater world.

DRIVE D950

LENGTH	BEAM	MAX POWER
954 cm	319 cm	1 x 700 hp 2 x 350 hp
CAPACITY	ENGINE SHAFT	WEIGHT
14	1 x XXL 2 x XL	2160 kg

The Drive D950 is a large B category offshore RIB, built around a modular concept to deliver exceptional versatility, capacity and performance. Seating up to 14 people, it features a reinforced two-stepped deep-V hull and an open, configurable deck, making it a robust platform that easily adapts to both commercial and recreational use. Rated for up to 700HP with optional twin-engine installation, it offers outstanding power and control even in demanding sea conditions.

STANDARD FEATURES

- Fiberglass two-stepped deep-V hull with self-bailing anti-skid deck
- Anchor and transom lockers, bow and rear storage compartments
- Multi-chamber inflatable tube with life line rope
- Bow step platform with mooring cleats
- Steering console with windshield and storage
- Dashboard for up to 2x17" screen, with glove box and cupholders
- Inbuilt fuel system with 2x300lit / 2x79gal tanks
- Integrated cleats, towing & lifting eyes
- Electrical package for boat & console
- Pump, paddles and maintenance kit
- Black powder coated stainless steel

OPTIONAL EQUIPMENT

- Widely customizable deck-console-seats layout
- Double jockey seats with storage, up to 6 pairs (12 seats)
- Suspension sports seats, adjustable
- Professional Ulman Biscaya sports seats
- Diving equipment benches, up to 3 units
- On-tube side platforms with ladders
- Navigation & waterski mast with handrail
- Rear swimming platforms with ladder and handrail
- Bow railings, on-bow step platform installation
- Premium steering wheel
- Canvas T-top
- Jockey seats and harbour covers
- Overpressure valves

DRIVE D600

With modularity as one of the key features of the entire Drive Line series, the D600 was the first model to introduce our true vision of modern-day adaptability. It all starts with a high-performance, extra-deep V hull and a simple yet ergonomic deck design. Stripped down to its open deck, this model becomes a blank canvas for creativity — a foundation for endless customization. From that idea, we developed three of the most versatile and appealing versions. Of course, you're always free to take it even further.

LUX

Featuring a center console layout with a double pivot bolster seat for the helm and passenger, the Lux version is the most refined of the three — offering maximum comfort and style. With plenty of storage across numerous M- and S-sized lockers, generous seating, and large sunbeds with bow and rear sundeck extensions, this model is designed to be the perfect family RIB for relaxed cruising and leisure.

ACTIVE

Built on the same center console layout, the Active version swaps the bolster seat for a pair of single sport seats — focusing on practicality and versatility. Remove the extra cushions and sunbeds, and it becomes a capable work or patrol boat. Take off the front console seat and add SeaDek to the lockers, and you've got yourself a spacious, functional fishing setup ready for adventure.

DRIVE

This configuration features a stern-mounted steering console with a single sport seat for the driver and up to five jockey seats for passengers — ideal for nautical tourism as a compact and efficient taxi RIB. Replace the jockey seats with a bench, add side ladders, and you'll have a practical yet roomy diving RIB that makes the most of every inch of deck space.

DRIVE D600

LENGTH	BEAM	MAX POWER
612 cm	250 cm	150 hp
CAPACITY	ENGINE SHAFT	WEIGHT
12	XL	597/626/596 kg

The Drive D600 is a mid-size C category RIB designed to deliver the perfect balance between performance, adaptability, and practicality. Powered by up to 150 HP and seating up to 12 passengers, it offers a spacious and stable platform built on a high-performance, extra-deep V hull that ensures excellent handling and seaworthiness even in challenging conditions.

STANDARD FEATURES

- Fiberglass deep-V hull with self-bailing anti-skid deck
- Anchor, transom and underdeck lockers, bow and rear storage compartments
- Multi-chamber inflatable tube with handles
- Bow step plate with mooring cleats
- Central steering console with windshield & removable seat (LUX & ACTIVE)

- Single jockey seats with storage, up to 5pcs (DRIVE)
- Navigation & waterski mast, rear handrails
- Rear swimming platforms with ladder and handrail
- Electrical package for boat & console
- Bow railings, on-tube installation
- Hydraulic steering system
- Mechanical steering system
- Premium steering wheel
- Removable bow sundeck kit (LUX & ACTIVE)
- Removable rear sundeck kit (LUX)
- Freshwater set with shower
- Canvas T-top
- Canvas bow Sun-top, w/ T-top only (LUX & ACTIVE)
- Canvas rear Sun-top, w/ T-top only (LUX & ACTIVE)
- Overall, consoles and harbour covers
- SeaDek soft anti-skid flooring
- Keel & tube protector packages
- Overpressure valves

SILVER LINE SERIES

Designed with practicality and efficiency in mind, the Silver Line boats range offers tender solutions that are both functional and elegant. Lightweight, spacious and cost-effective build makes them helpful and reliable sailboat tenders. However, with three deck layouts to choose from - Open, Sport, and Lux – mid-sized Silver Line models still provide alternatives in use as a capable leisure boat. Cruise a nice and fair family RIB with the Lux, ride a fun and thrilling sports RIB with the Sport, or enjoy diving and fishing with the Open. Define your own style.

SILVER LINE S470

MODEL	LENGTH	BEAM	SHAFT	CAPACITY	WEIGHT	POWER
	cm	cm	size	ppl	kg	hp
S470N	470	205	L	8	170	70
S470NS	470	205	L	8	200	70
S470NL	470	205	L	8	208	70

Economic and versatile. Practical and functional RIB, with a lightweight and efficient hull - S470 is built to suit various purposes including an uncomplicated main family boat. Prioritizing functionality over luxury.

Recreational luxury RIB and classy yacht tender with the Lux version, agile little sports RHIB with the Sport version, or simple and spacious dinghy with the Open version - the unparalleled versatility.

- Canvas bimini-top, collapsible
- Overall and consoles covers
- SeaDek soft anti-skid flooring (LUX)
- Keel & tube protector packages
- Black powder coated stainless steel upgrade
- Overpressure valves

SILVER LINE S370/S420

MODEL	LENGTH	BEAM	SHAFT	CAPACITY	WEIGHT	POWER
	cm	cm	size	ppl	kg	hp
S370N	370	185	S	5	95	30
S370NS	370	185	S	5	120	30
S370NL	370	185	S	5	124	30
S420N	420	195	L	8	115	50
S420NS	420	195	L	8	145	50
S420NL	420	195	L	8	145	50

Flexible and portable. Nearly weightless S370 and S420 have been primarily designed to provide a reliable and practical dinghy solution for connection with the mainland. The ultimate adventure companion.

Available in Open, Sport, and Lux layouts they bring forth nice and neat alternatives in style and use applications. Multipurpose and elegant tenders to complete a yacht setup, go fishing or to have a little leisure ride on.

S370 SPORT

S370 LUX

- GRP steps of the inflatable tube
- Removable bow sundeck kit (LUX)
- Removable seat cushion with underbag (OPEN)
- Canvas bimini-top, collapsible
- Overall and consoles covers
- SeaDek soft anti-skid flooring (LUX)
- Keel & tube protector packages
- Black powder coated stainless steel upgrade
- Overpressure valves

SILVER LINE S275/300/330

MODEL	LENGTH	BEAM	SHAFT	CAPACITY	WEIGHT	POWER
	cm	cm	size	ppl	kg	hp
S275	275	155	S	3	53	10
S300	300	167	S	4	56	20
S300S	300	167	S	4	77	20
S300L	300	167	S	4	77	20
S330	330	169	S	4	63	25
S330S	330	169	S	4	84	25
S330L	330	169	S	4	85	25

Small and handy. Simple, low-maintenance and reliable classic dinghies, that are primarily used as open sailboat tenders to travel light.

Tiny tenders S275, S300 and S330 are super lightweight in its Open version and just slightly heavier with the Lux version of a classy yacht tender RIB (S300 and S330).

S300 SPORT

S330 LUX
